

The ladies of TOPS #WA1503, Port Orchard tried a fun way to get outside at our last meeting. Dana Suttell taught us how to Geo Cache, a high tech way to treasure hunt. Using a GPS you search out hidden treasures. It's a fun way to get more exercise in our lives. The caches are everywhere. On walking trails, parks, neighborhoods. Many involves nice walks, many handicap accessible, it truly is for everyone. We located several that morning and walked a couple of miles as well.

This is Dana Suttell, Barb Pendleton, and Linda Zahnow finding a cache.
