

MARCH 2011

THE ROAD TO SUCCESS IS A SHARED ROAD

ON THE ROAD

Our trip started with our January 22, 2011 Funday in Burbank.

Each of the 20 members in attendance were given a "travel bag" containing a toy car, a luggage tag, a word search book the names of streets and/or cities as the words to be found and a colored map of the United States to help them determine their destination. Each member was then given the supplies and time to prepare a "progress report" sheet using sticky foam letters and shapes to take home and record their progress toward their destinations as they incorporate lifestyle changes that will help them achieve and maintain their goal weights.

One of the things that made this meeting such fun was that members from the same chapter were asked to sit at tables with members from other chapters. Each person brought a "sack lunch" and I overheard several conversations between members of different chapters sharing program & contest ideas.
